Week 9 tute 2/5/17

Completed:

Full GUI mkl

Adding and deleting availabilities - daniel/cory

Adding and canceling bookings - daniel/cory

Adding customers - daniel

Adding businesses - cory

Adding employees - cory

Show business info - daniel

To-Do:

Documentation for part b -everyone

Minor tidyup of code for GUI - cory

Add logger to all owner dashboard functions -cory

EXTRA:

For part C we need to extend our program to support types of bookings- this is Sohum's job to do.

Also change the availabilities to add a generic shift to customers which will be broken up into blocks according to the type of appointment
